

# H2020 – CSA (Coordination & Support Actions)

## Agroecology for Europe - AE4EU

CSA: misure di accompagnamento come la standardizzazione, diffusione, *sensibilizzazione e comunicazione*, *creazione di reti*, coordinamento o servizi di supporto servizi, dialoghi politici ed esercizi e *studi di apprendimento reciproco*, compresi studi di progettazione per le nuove infrastrutture e possono anche includere attività complementari di pianificazione strategica, messa in rete e coordinamento tra programmi in diversi paesi

# AE4EU: Obiettivi

- **Mappare e qualificare le iniziative di agroecologica** (iniziative attoriali, programmi e progetti di ricerca, Living Labs - LL, Infrastrutture di Ricerca- IR, networks)
- **Sviluppare competenze e metodi per promuovere i LL e le IR per l'agroecologia**
- **Identificare schemi innovativi di finanziamento di ricerca e l'innovazione per l'agroecologia** (lungo termine, complementarità tra pubblico e privato)
- **Potenziare il capitale umano e sociale** (creazione di un Hub digitale della rete europea di Agroecologia)
- **Analizzare il quadro politico** attuale che include gli elementi dell'agroecologia e **fornire raccomandazioni** per lo sviluppo delle politiche future
- Supportare la CE e lo SCAR nella definizione della **Partnership "Accelerating farming systems transition: agroecology living labs and research infrastructures"**

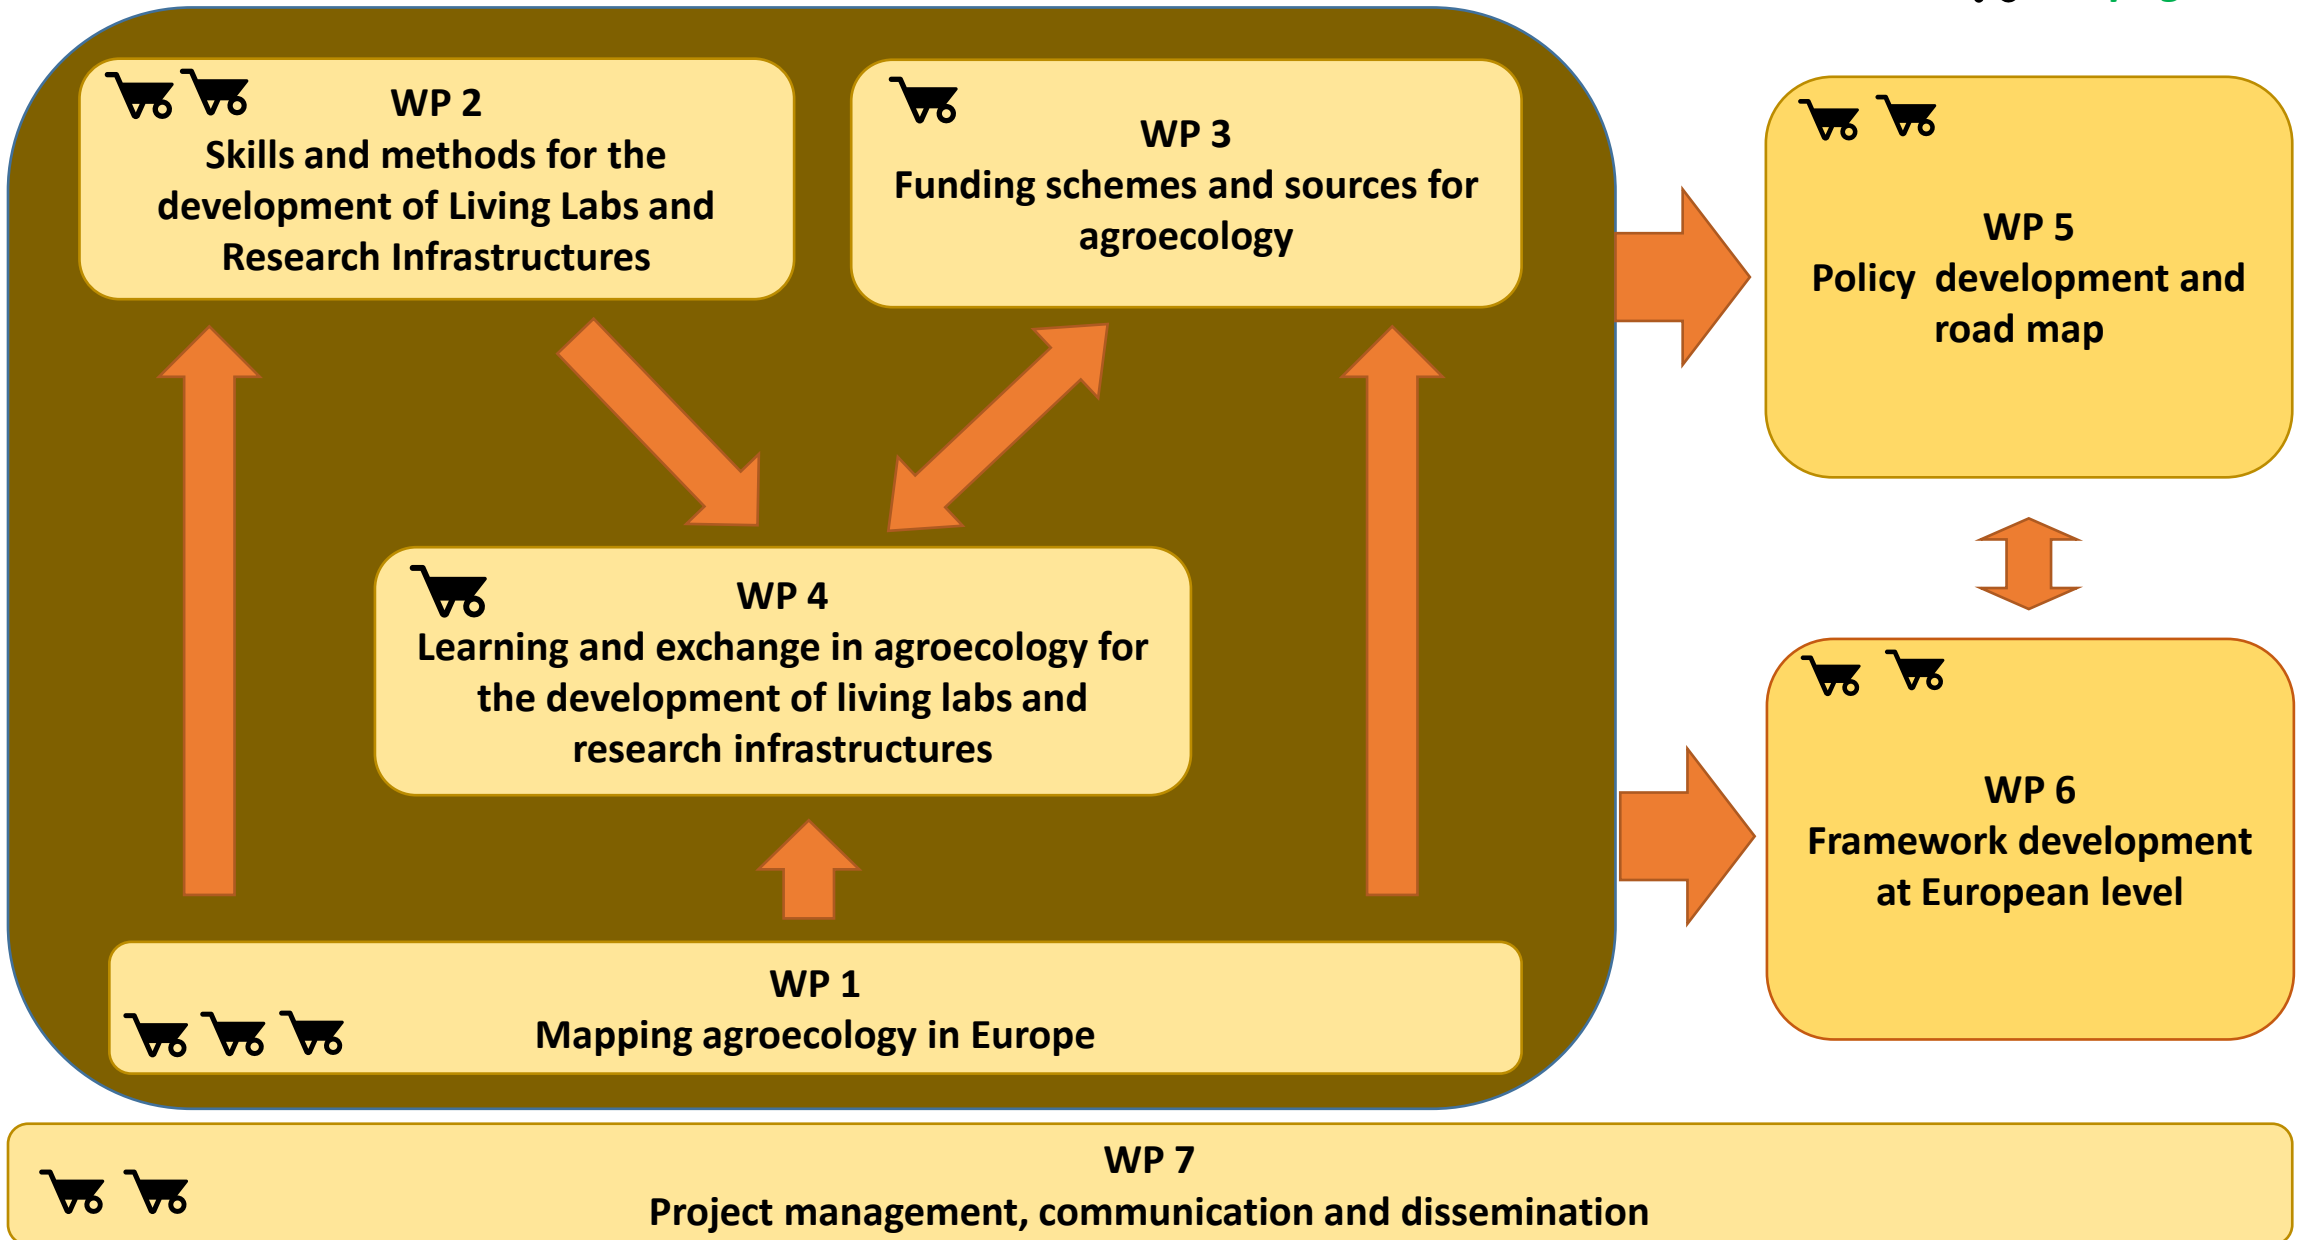

The three main ALL components

# WP1 –Mapping agroecology in Europe

## Task 1.3 Development and coordination in research

### Subtask 1.3 A (3/2021- 6/2022)

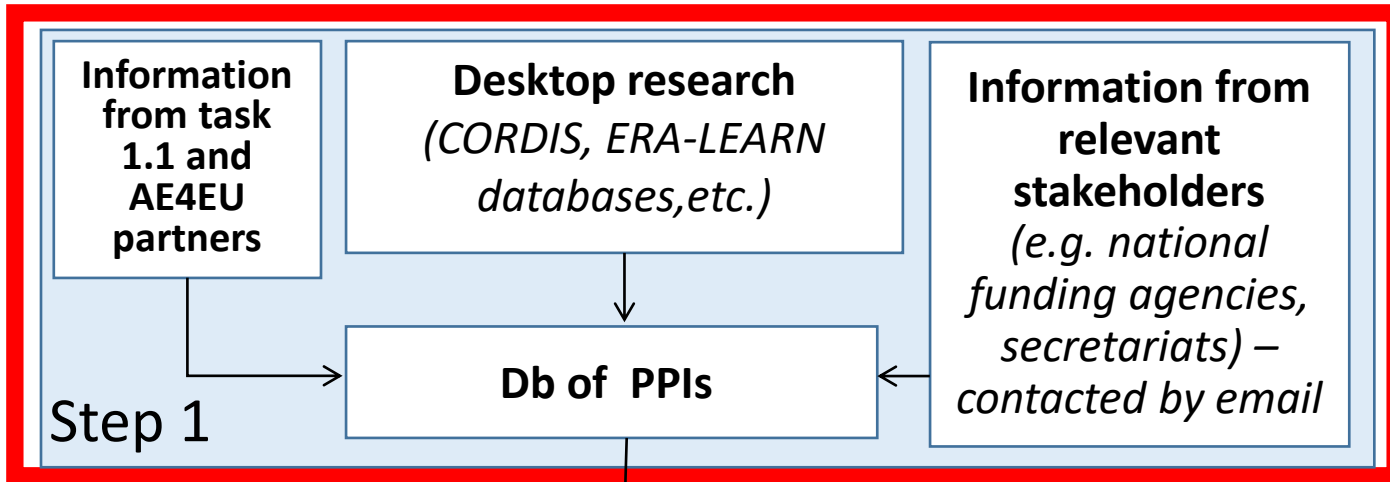

**Mappatura dei progetti/programmi/istituzioni (PPI)** coinvolti nella ricerca sull'agroecologia (AE) in Europa a diversi livelli (nazionale, transnazionale ed europeo) al fine di:

- valutare **come l'agroecologia è compresa e percepita** da chi pianifica e progetta la ricerca;
- caratterizzare i PPI in termini di implementazione degli **elementi dell'agroecologia**.

### Subtask 1.3 B (11/2021- 6/2023)

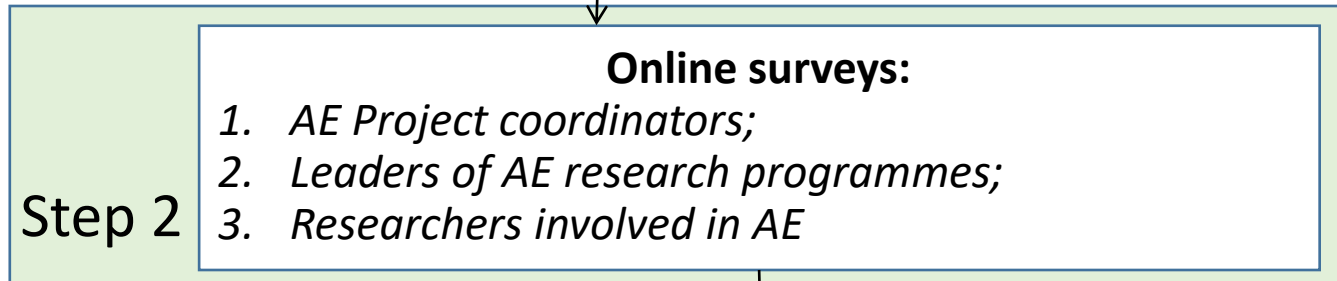

Identificazione dei **fabbisogni di ricerca per l'agroecologia**

# SubTask 1.3A – Methodology *March 2021-June 2022*

**P - Preliminary database (10/2021)**

**O - Final database on PPIs (6/2022)**

**MS2** - Questionnaire for research projects (6/2021)

**MS3** - Questionnaire for research programmes (10/2021)

**D1.3** - Deliverable (6/2022)

# Preliminary results

## Step 1: Desktop research – European projects

CORDIS  
EU research results

CORDIS database (Horizon framework)

Keywords:

**Agroecolog\*** -> 43 results

**Agro-ecolog\*** -> 1880 results (*Domain: Food and Natural resources, Society*-> 261 results)

**Agroforestry** -> 16 results

**Silvopasture** -> 2 results

**Silvoarable** -> 1 results

**Food justice** -> 0 results

**Food system** -> 101 results

**Food sovereignty** -> 3 results

**Rural Development**-> 22 results

EURAKNOS

EURAKNOS database (Horizon framework) -> 35 results

factsheets, websites

### AE project selection :

Action-oriented research  
Actor engagement  
+

validation

AE4EU partners

**55 projects**

+

**11 projects**

related programmes  
(calls/topics)

# Preliminary results

## Step 1: Desktop research – Transnational projects

ERA-LEARN database (Horizon framework)

No keywords -> 34400 results

Organic EPRINT database (2014 -)

Type = Project -> 3 results  
EN language

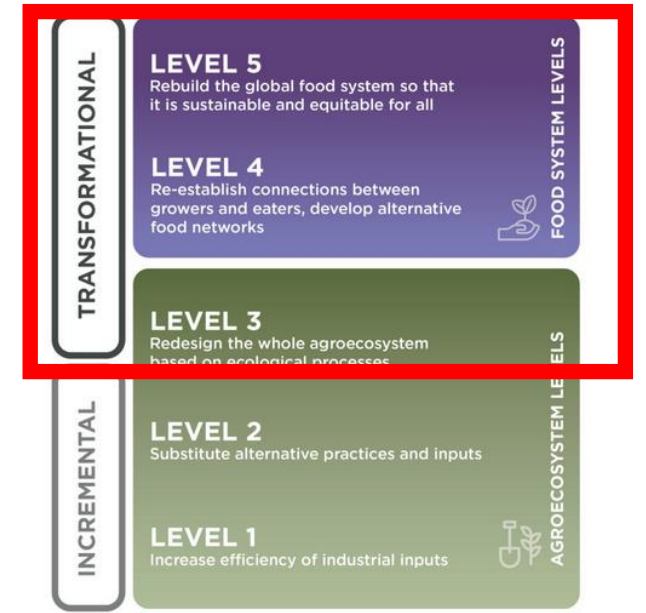

factsheets, websites

### AE project selection :

Action-oriented research  
Actor engagement

+

52 projects

+

2 projects

validation

AE4EU partners

related programmes  
(networks/calls)

# *Preliminary results*

## **Step1: Information from relevant stakeholders**

### **National projects and programmes**

#### **National funding agencies/bodies contacted by e-mail**

(139 national agencies/bodies from 31 Countries)

*“We kindly ask you to fill in the file enclosed with the requested basic information on **programmes and projects** where **agroecology** is explicitly mentioned or if they refer to topics (i.e., **organic farming, agroforestry, local food system, etc.**) where **agroecologically sound approaches** are declared (for guidance, if necessary, see below: “**Agroecology?**”).”*

#### **Agroecology?**

Agroecology embraces **science**, a **set of practices** and a **social movement** (Wezel et al. 2009, Agroecology Europe 2017), and **applying the concept to whole agri-food systems** (Francis et al. 2003, Gliessman 2007). As a **science**, it gives priority to **action research, holistic and participatory approaches, and transdisciplinarity** that is inclusive of different knowledge systems (Agroecology Europe 2017). As a **practice**, it is based on sustainable use of local **renewable resources, local farmers’ knowledge and priorities**, the **wise use of biodiversity to provide ecosystem services and resilience**, and solutions that provide multiple benefits (environmental, economic, social) from local to global (Wezel et al. 2014, Agroecology Europe 2017). As a **movement**, it defends smallholders and family farming, farmers and rural communities, **food sovereignty, local and short food supply chains, diversity of indigenous seeds and breeds, healthy and quality food** (Agroecology Europe 2017). Agroecology is increasingly recognised as a development pathway, which maximises environmental sustainability, producer autonomy, and economic resilience.

## *Preliminary results*

### **Step1: Information from relevant stakeholders**

#### **National projects and programmes**

**National funding agencies/bodies contacted by e-mail**

(139 national agencies/bodies from 31 Countries)

**Received answers (so far):**

	<b>n. projects</b>	<b>n. programmes</b>
<b>Estonia</b>	35	3
<b>Finland</b>	39	5
<b>Ireland</b>	25	7
<b>Italy</b>	26	1
<b>Lithuania</b>	254	12
<b>Moldova</b>	46	4
<b>Norway</b>	7	-
<b>Montenegro</b>	-	2

## *Preliminary results*

### **Step1: Information from relevant stakeholders**

#### **National projects and programmes**

#### **Information provided by our AE4EU partners**

	<b>n. projects</b>	<b>n. programmes</b>
<b>France</b>	22	-
<b>Germany</b>	5	
<b>Spain</b>	16	2
<b>United Kingdom</b>	62	-
<b>Romania</b>	-	1

## ***Provisional database – The structure***

**The provisional version of the database on PPIs** is currently composed by the following **six lists** (sheets) including:

- 1. European research projects** related to AE **funded by the European Union** under the Horizon 2020 framework programme from 2014 onwards;
- 2. Transnational research projects** on AE **co-funded by transnational initiatives and member States** from 2014 onwards;
- 3. National research projects** on AE **funded by national programmes** in the different European countries from 2014 onwards;
- 4. European programmes.** This list reports the topics and calls from which the selected European AE projects reported in the list n.1 were funded. The list was also enriched including topics and calls from the new working programme 2021-2022 (Horizon Europe Programme)
- 5. Transnational programmes** which financed the transnational research projects identified in list n.2.
- 6. National programmes.** Here the information on the national AE programmes provided by relevant key informants (i.e., national funding agencies and bodies, AE4EU partners) are included.

## ***Pianificazione per i prossimi mesi***

- **Invio del db provvisorio alla CE entro la fine di ottobre 2021;**
- Questo output preliminare sarà condiviso con All-Ready per ulteriori convalide, integrazioni e miglioramenti
- Implementazione delle strutture dei tre questionari in forma Google (entro novembre 2021)
- Invio di e-mail ai coordinatori del progetto, ai leader del programma e ai ricercatori per la compilazione dei questionari e la raccolta dei dati (fino a febbraio 2022)
- Analisi e restituzione dei dati (consegna finale entro giugno 2022)
